

**MONMOUTH OCEAN EDUCATIONAL SERVICES COMMISSION
 PRINCIPAL EVALUATION INFORMATION
 2009-2010**

As part of the federal requirements for states' receiving funding under Phase 2 of the State Fiscal Stabilization Funds Program, all school districts in New Jersey are providing information to the public on the procedures they use to evaluate teachers and principals. The information presented below will help you understand Monmouth Ocean Educational Services Commission's policies and procedures for evaluating teachers and educational specialists such as librarians and counselors.

The Monmouth Ocean Educational Services Commission (MOESC) strives to provide quality educational leadership to the students and teachers in the MOESC programs. Integral to providing this experience is the recruitment, development and retention of New Jersey certified and highly qualified administrators. MOESC uses a process that is designed to evaluate administrator performance and provide the feedback needed to continue to provide a quality education to our students and professional support for our teachers.

The evaluation process includes formal and informal meetings and evaluations. The evaluation instrument that is used is based on the New Jersey Professional Standards for School Leaders and includes: instructional planning/design and performance of professional responsibilities.

Performance of administrators is described in narrative form. Corrective plans are implemented as necessary and may include additional training and support. In addition to the evaluation process other methods such as professional development plans and professional development hours are used.
